

10,000 Facebook Fans within reach

Dear Google TwinPorts Fiber supporters,

Our goal is to push our Facebook groups page supporting the Duluth-Superior region past the 10,000 mark by 5 p.m. today, and we're nearly there! Please tell all your co-workers, friends and relatives to go to <http://www.googletwinports.com/facebook> and join our group, even if they don't live in the region. Our strategy is to communicate through that page, in order to get more people to sign our form telling Google to come to Duluth and Superior, and join this mailing list.

Here's an easy way to invite your friends to join our Facebook group. Under the Google logo on the upper left of the Facebook groups page, you will find a link called "Invite People to Join" - click on that link and you can quickly invite your friends who have not yet joined the effort. It's a quick way for us to expand our ranks!

Thank you,
Mayor Don Ness
City of Duluth
